VOL. XXVI, No. 47

DIDSBURY, ALBERTA, THURSDAY, NOVEMBER 21, 1929

\$2.00 per Year. 5 cents a copy

Didsbury Men Will Drill For Oil.

In 1901 or 1905 a well was drilled at Olds to a depth of about 735 ft. Mr. W. R. Coates was a member of the drilling crew, the object being to discover water. At the above point a showing of crude oil was encountered and the well was abandoned. As a result of this discovery, Mr. Coates acted in the capacity of geologist, and two years ago staked a drilling site at a location immediately across the highway opposite the Olds cemetery. He and a partner commenced drilling operations, bearing their own expenses, and drilling continued until a depth of 300 feet was reached, where they encountered a slight showing of gas. At this depth drilling was suspended and there has been no further activities up to the present time at the well, with the result that it has given the general public a presentment that all work and money expended had been in vain. Not so, however, Mr. Coates has been busy in another sphere of labor. Being convinced that the site he has chosen manifests all the possibilities of crude oil production, he and other local residents have formed a company, which carries the name of "Olds Dome Oil Company Limited." This is a Dominion company with a capitalization of 200,000 shares of

Didsbury Curlers Are Getting Busy.

The cold snap this week has made the followers of the "roaring game" anxious to get going with the "stones" and broom and work has been commenced to flood the rink.

It is expected that there will be even more enthusiasm shown this year than last and several new recruits are expected to take a hand at the game.

The Didsbury Rebekahs are announcing that they will hold a novelty dance in the Opera House on Tuesday, Dec. 3rd. Both new and old time dance music will be supplied by Bellamy's orchestra. Several prizes will be given and supper will be served.

no par value, organized for this purpose of developing certain petroleum and natural gas properties. The company proposes to continue the present well, equipped with new machinery, to a depth sufficient to ascertain whether there is oil in quantity. In the event of a substantial flow of gas being encountered, a local market might be found both in Olds and Didsbury.

The directors of the company are: W. R. Coates, P. H. McCann, and W. J. McCoy. The company has issued a prospectus, a copy of which may be obtained by applying to the head office at Didsbury.

LOCAL & GENERAL

The recent fall of snow took a number of Didsburyites to the big timber in search of big game.

Geo. Ward's sale on Saturday Nov. 23, will be held at North End livery barn.

Mr. J. T. Berrington, of the LaSalle University, was a business visitor in town on Monday.

"The Bridge of San Luis Rey," starring the beautiful Lily Danita, at the Opera House, Wednesday, Nov. 27.

Mr. and Mrs. W. A. Teskey and daughter were at Olds on Sunday visiting at the home of Mr. and Mrs. H. E. Branscombe.

Mr. Cecil Adshead returned Friday from a week's hunting trip in the west country. He succeeded in bringing home his deer.

Mrs. A. Watson, (nee Bernice McMow) spent last week in town at her mother's home, returning to her home in Spirit River, Alta. on Sunday.

Notice to U.F.A. Members—A carload of coal will be on the track on Saturday, Nov. 23. Phone your order to D. Irwin, W. J. Scheidt, or the U.G.G. Elevator.

Lon Chaney, the man of a thousand faces, in "West of Zanzibar" at the movies on Saturday, Nov. 23.

Mr. and Mrs. Ralph Budgeon, who have been spending their honeymoon at Banff, spent Monday in Didsbury before leaving for their home at Bon Accord.

Messrs. Brusco, McNaughton, A. O. Fisher, McCoy, Pearson, Saunders, Whiteside and N. Clarke are attending the annual Municipal convention at Edmonton this week.

The Ladies Aid of Knox United Church are holding a bazaar, sale of home cooking and afternoon tea in the opera house, Saturday afternoon, Dec. 7th from 2 to 6 o'clock. The ladies are putting every effort to make this a grand success.

"Jesus Knocking To-day" is the title of a very beautiful pageant to be rendered on Sunday in the Ev Church, by the W.M.S. The society consisting of 37 enrolled members will have full charge of the service, the entire group taking part in song, speech or other exercises of the program.

WEDDINGS

ATKINSON—TOWERS

A very pretty wedding took place November 7th in St. Martin's Church, Glengarry, when Louisa Grieve Towers, elder daughter of Mr. and Mrs. John Towers, became the bride of Basil Antal Atkinson, eldest son of Mr. and Mrs. Atkinson of Didsbury, the Rev. A. S. Wiley officiating.

The bride, who was given in marriage by her father, was charming in a dress of white satin and lace with veil and coronet of orange blossoms. She carried roses and lily of the valley. Mrs. Russell McCoy, sister of the bride, attended as matron of honor wearing a dress of powdre bleu georgette and picture hat, and carrying a bouquet of carnations. Eric Atkinson, the bridegroom's brother, acted as best man.

A reception was afterwards held in St. Martin's hall which was beautifully decorated for the occasion, in mauve and pale yellow. The occasion marking also the fortieth anniversary of the bride's parents. The bride's table was centred with a lovely four-tier wedding cake, whilst the second table was centred with a three-tier cake for the 40th anniversary of her parents. During the evening a presentation was made by W. E. Towers to Mr. and Mrs. Towers from their sons and daughters.

The bride and bridegroom left for a motor trip to the north and on their return will reside at Didsbury.

Tuxis Will Hold Grand Rally Here.

A grand rally of the members of the Tuxis and C.G.I.T. from Crossfield will be held in the Knox Church this Friday, Nov. 22.

A banquet will be given at 6 p.m. Rev. R. W. Hibbert, Tom Haythorn and others are planning to be present.

Rev. A. E. Hayes is heading up the rally.

The special service on Sunday night at the Knox Church, will be in charge of the young people.

EXTEND ALBERTA ROADS 400 MILES

Nearly 400 miles of Alberta highways have been under construction this season and are now more than 95 per cent. completed. Work is still proceeding on some of the gravelling contracts but will be fully done before winter sets in, unless it comes with a rush.

Hon. O. L. McPherson, minister of public works, in summarizing the road-works programme of 1929, says that the construction season has been particularly successful, the long periods of dry weather having proved, in this respect, an undisguised blessing. It has also been a good season in the way of new operating methods and experimenting work.

The mileage of new work put through is made up of 143 miles of earth grade, 207 miles of first-course gravelling, and 38 miles of second-course gravelling. It makes a total of 1,335 miles of standard earth grade on the main highway system of the province, of which 822 miles have been gravelled to date. Another year's work will easily run Alberta's gravel roads up to the thousand-mile mark.

The heaviest grade construction of the season was done on 44 miles of new location between Winterburn and Seba, west of Edmonton, and next on the list in length and earth displacement was 35 miles on the Lacombe-Nevis section.

Alberta House to Meet in January.

The Alberta house will not be summoned before Christmas, but Premier Brownlee states that indications are that the Government will have its work in shape to call the session earlier than in previous years; but the date has not been considered as yet.

The government is going through its department business with a view to preparing the session, and each department will be checked up by the premier during the next few weeks in order to ascertain what, if any, new legislation it will require and what will be necessary to get its report ready for submitting.

Railway Will Build West of Didsbury.

There has some activity developed this last week towards building the railroad west of here to Rocky Mountain House, the charter of which was approved some time ago.

A camp of surveyors has been established west of Crossfield and they are reported to be making the final locations.

From information received the line will probably be complete during 1930.

Westerdale Graded 75 Miles of Road

According to Mr. A. McNaughton the Westerdale Municipality graded more road during the past season than any other year.

Over 75 miles of road was graded in this municipality in addition to the usual road upkeep.

Jewelry Store Looted at Olds.

Burglars broke into the jewelry store of A. W. Askins, at Olds on Sunday night and took watches and jewelry to the value of about \$500.

Entrance was secured by cutting the plate glass door. Nothing was taken from the store itself, but the most valuable articles in the window were stolen.

Canada Among the Nations

Canadians of all classes can hardly fail to feel a thrilling pride in the rapid strides forward made by their Dominion in the realm of international affairs. Since that fateful day in 1914, when the world was plunged into war, and Canada at once, and without the slightest hesitation, took its place in the front rank of the Allied hosts, the growth of this country in world estimation and influence, has been one of the remarkable features of the international situation.

Hardly a year has passed without witnessing some new advance step taken, or some noteworthy achievement added to the record, revealing Canada's new and higher status in the councils of the nations.

Concisely, but eloquently, Sir Robert Borden outlined the Dominion's growth in international stature within the short space of the last two years in a memorandum prepared and submitted by him to the Institute of Pacific Relations now in session at Kyoto, Japan. Since 1927, when the Institute last assembled, Canada had adhered to the multilateral pact for the renunciation of war, has given adherence to the optional clause in the statutes of the Permanent Court of International Justice, has exchanged ministers with France and Japan.

Canada, too, has aligned itself wholeheartedly with Premier Ramsay MacDonald and President Hoover in their fine effort to promote mutual understanding and goodwill between all sections of the English-speaking world, thus paving the way for a larger measure of world disarmament, and making an immensely important advance toward the goal of permanent world peace.

Nor has Canada confined its efforts to the signing of treaties and the making of gestures. When the unfortunate incident of the "Im Alone" arose, a happening which in days gone by might have precipitated almost immediate war, and certainly a feeling of hostility containing the seeds of future trouble, Canada kept cool, and through the medium of diplomatic correspondence between Ottawa and Washington, a basis of arbitration was quickly and mutually arranged to the satisfaction of both nations. Speaking of this correspondence, Sir Robert says:

"The diplomatic correspondence on the subject between Canada and the United States is admirable in tone, and the questions of fact and law presented are set out lucidly and temperately on each side."

In the Assembly and Council of the League of Nations, Canada's voice is always heard in support of all measures calculated to make for peace. This Dominion is a real leader at Geneva in all efforts to promote international understanding and goodwill, and in the devising of ways and means to remove causes of suspicion and irritation.

Co-incident with the rise of Canada as a factor in international affairs, the foreign trade of the Dominion has increased by leaps and bounds until now this country can boast of the second largest world trade per head of population. Canada's ministers at Washington, Paris and Tokio, are reinforced in this work of creating international goodwill and prestige for Canada by a large and steadily increasing number of trade commissioners in all parts of the globe.

Canada's strong position can be made stronger through the united sympathy and effort of the Canadian people. Sir Robert Borden, while voicing unqualified praise of the anti-war pact, declared that the peace of the world cannot be secured by treaties alone, nor can it be maintained by force. The same foundation which assures ordered liberty and justice in a modern civilized state must be created on an international scale if peace is to endure.

The education and idealism of the people, their inherited respect for law, and their determination to maintain order and justice against crime and lawlessness," Sir Robert said, "are the real foundations upon which stable government rests. In the world there must be an international public opinion upon which will be established between the nations the enthronement of public right and justice."

Canada, no less than other countries, has everything to gain through the development of such an international public opinion. Only by the maintenance of peace can Canada's great foreign trade continue to prosper and grow. The development of an international public opinion must begin within each national unit and spread through the whole body of humanity.

Canada has that international viewpoint. It is growing stronger, and every true Canadian will exert himself or herself to foster it. It is one of the greatest things in the nation and in the world today.

Both the Mediterranean and the Gulf Stream which flows like an individual sea in the Atlantic, are very salty and of a deep and beautiful blue in color.

Newspapers were the only material used for the whole of a house, with the exception of the frame work, the windows and the floors, built in Massachusetts by a married couple.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

England Not So Slow

When Necessary Can Show Other Countries What Speed Is

The distance between Paddington and Swindon, in England, is seventy-six and one quarter miles. The Great Western Railway of that country has announced that it has cut the time of one of its passenger trains between these stations to seventy minutes. That looks as if these English trains are operating at about sixty-six miles an hour.

Sometimes we think that we are masters of all the speed on this side of the water. When our trains average fifty miles an hour we consider that we are not letting any grass grow under our feet.

Not long ago a British aviator went out and flew a seaplane at a speed of 368 miles an hour. That was the fastest time ever made by any kind of vehicle capable of carrying a human being.

It must be admitted that when the Old Country people set out to make fast time they are in a hurry. It is quite erroneous to harbor the opinion that they are slow. They have a leisurely way in certain affairs, but in others they are speedy.

NERVE TORTURES

A Condition From Which Both Men and Women Suffer

Hardly any condition of ill health causes more real suffering than a shattered nervous system. And often, unfortunately, but little sympathy is shown for the sufferer, from the mistaken notion that the nerves can be controlled. Men and women with nerves out of gear often become irritable and are blamed for ill temper, when it is not their fault. Their poor health is the cause. The tired, over-busy wife and mother, whose household cares have worn her thin; the breadwinner whose anxieties have worried him until he is really ill, are among the nerve sufferers who become run-down. Their nerves, like all bodily organs, need rich, red blood. In all such cases the best and simplest treatment is a course of Dr. Williams' Pink Pills, which enriches the blood and builds up the nervous system and brings good health and cheerfulness. Mrs. M. Cross, Richmond, Que., tells how this medicine ended her nervous troubles. She says: "I have suffered from nervousness and dizzy spells, and the hundred and one things which in such a condition make life a misery. The first thing I found to help me was Dr. Williams' Pink Pills. Under the use of this medicine I found my nerves grew steadier, the dizzy spells grew less frequent, and I became brighter and more cheerful. I took the pills for some time and found that they enrich the blood, build up the nerves and are a fine medicine for both old and young."

You can get these pills through any medicine dealer or by mail at 50c, a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Safer To Stand Up

Mussolini Had Amusing Experience At Theatre In Italy

You don't have to believe this, but a gentleman returned from abroad says that an American girl studying Italy went into a moving-picture theatre and suddenly realized that she was sitting just behind none other than Il Duce Mussolini himself. His visit was incognito, and successfully so, for no one recognized him in the half light of the cinema. He was enjoying everything hugely until, in the midst of a newsreel, a portrait of himself in heroic pose was thrown on the screen. The spectators of course, all arose, cheering wildly, all save Mussolini himself, who sat through the demonstration, fidgeting. His had been, obviously, a rather nice point—whether to stand up and risk being recognized honoring himself, or to remain modestly seated. After the excitement was over an old Italian lady who had the seat next him leaned over and said: "Signor, that's how we all feel, but it's safer to stand up."

Watch the Lanterns

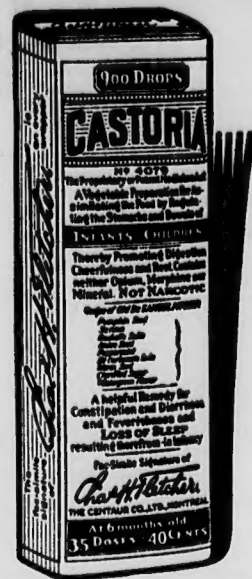

The Farmer's Advocate says: As the days shorten the lantern comes into use in choring, night and morning. Plenty of hooks should be provided, and wires as well, along which the lantern may slide. Carelessness with the lantern has resulted in many disastrous fires."

The Union of South Africa, in 1921, had a white population of 1,500,000 against 5,000,000 blacks.

Feet Sore? Use Minard's Liniment.

W. N. U. 1810

When BABIES are upset

Baby ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea—a condition it is always important to check quickly. How would you meet this emergency—tonight? Have you a bottle of Castoria ready? There is nothing that can take the place of this harmless but effective remedy for children; nothing that acts quite the same, or has quite the same comforting effect on them.

For the protection of your wee one—for your own peace of mind—keep this old, reliable prepara-

tion always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria; the genuine bears Chas. H. Fletcher's signature on the wrapper.

Commands Atlantic Liner

Ronald Stuart Was First Canadian To Win the Victoria Cross In British Navy

At least one Canadian holder of the coveted Victoria Cross "worked his way" to England for the Prince of Wales' dinner on Nov. 9, and none can deny that he earned his passage. This is Commander Ronald Stuart, V.C., captain of the Canadian Pacific liner, "Duchess of York," the first Canadian to win the Victoria Cross in the British Navy.

Commander Stuart brought the C.P.R. steamer "Princess Elaine" to the Pacific coast on her maiden voyage last year and was later elevated to command of the crack Atlantic liner which he now sails.

Another Titled Farmer

Sir Sandeman Allen, British Member of Parliament, has bought a farm in the Prince Albert district, to which he returned following his trip to the Pacific coast with Lady Allen and their son.

Count Ferdinand von Zeppelin, noted inventor of dirigibles, was an officer in the balloon corps of the United States Army during the Civil War.

"Made In Turkey" Week

Owing to the success of the first exhibition in Constantinople of Turkish national products, it has been decided to fix a week in August every year and to exhibit and sell only articles produced in Turkey.

Mother—"Shall we invite the boy next door to your birthday party?"

Little Lottie—"I don't think so—he's so good nobody likes him."

WHAT WILL IT DO?

Women are saying: "Pinkham's Compound keeps me fit to do my work." "I was nervous and all run down. Now I eat better and sleep better." "It helped my thirteen year old daughter." "I took it before and after my baby was born." "I am gaining every day."

Lydia E. Pinkham's Vegetable Compound

Poultry Pool Grows

Membership in the Manitoba Co-operative Poultry Marketing Association Ltd., Hartney, Man., has increased during its seven years of life from 1,000 to 11,000.

Needless Suffering

The next time a headache makes you stay at home—

Or some other ache or pain prevents your keeping an engagement—

Remember Aspirin! For there is scarcely any sort of pain it cannot relieve, and relieve promptly.

These tablets give real relief, or millions would not continue to take them. They are quite harmless, or the medical profession would not constantly prescribe them.

Don't be a martyr to unnecessary pain. To colds that might so easily be checked; neuritis, neuralgia; to those pains peculiar to women; or any suffering for which Aspirin is such an effective antidote.

You need not hesitate to take Aspirin. It is safe. It is always the same. It never depresses the heart, so use it as often as needed; but the cause of any pain can be treated only by a doctor.

ASPIRIN
TRADE MARK REG.

Figures Showing Cost Of Wars Should Bring Home To Everyone The Futility Of Armed Conflict

Everyone must fight if we have another war. The fighting won't be only on the battlefields. There will be fighting on the land and on the sea and in the skies. It will be carried right into the homes of the peoples. Everyone will fight — and everyone will lose. The cost would be unthinkable, and part of the price might be our civilizations. Even the victors must lose in modern warfare.

The Napoleonic wars (1790-1815), a conflict that lasted 9,000 days, killed 2,100,000 human beings, and cost \$3,070,000,000.

The American Civil War (1861-1865) lasted 1,350 days, cost 635,000 lives, and \$7,000,000,000.

The Franco-Prussian war (1870-1871) lasted for 210 days and cost 280,000 lives and \$3,210,000,000.

The Russo-Japanese war (1904-1905), lasted 548 days, cost 160,000 lives and \$2,100,000,000.

The above figures are for wars of the recent past, but how they pale before those of the World War!

The World War (1914-1918), lasted 1,563 days, cost 9,818,000 lives and \$186,233,637,097.

Now, all the real property in the United States, from the Canadian border to the boundaries of Mexico, and from the Atlantic to the shores of the Pacific Ocean, are worth considerably less than the cost of the World War.

It should interest and impress all engineers, business men, and all other people with common sense to learn that all the steam railroads and their equipment, all the motor vehicles, all the street railways, all the telegraph systems, all the telephone systems, and all the electric light and power stations of the entire United States of America could be purchased for a sum of money considerably less than one-quarter of the cost of the World war.

We have been told that of all the moneys raised from the peoples of the earth in taxation, eighty cents out of every dollar goes to defray the costs of the wars of the past and in the preparation of future wars. The thing is absurd. General Electric Review, 1929.

Prizes For Canadian Fruits

Exhibits From Dominion Win Awards At British Exhibition

Thirteen first prizes in apples, one first in pears and four seconds in apples were awarded to Canada exhibitors at the Imperial Fruit Show, which was held at Bingley Hall, Birmingham, according to cable advices received at Ottawa by the Department of Agriculture. Eight of the first prizes were won by Nova Scotia apple growers, and four by British Columbians. Nova Scotians secured the three second prizes. The most successful individual Canadian exhibitor was Charles A. Bentley, of Berwick, N.S., who secured no fewer than five firsts. The Associated Growers of British Columbia, Limited, of Vernon, B.C., obtained three.

The British Columbia company were also successful in the British Empire section, securing a first and second prize.

Record For Building

Building permits issued in Canada during the first eight months of this year reached a total of \$108,006,059. Not only was this the highest for the period ever recorded by the Dominion Bureau of Statistics, but it was 16 per cent. above the previous high record in 1928.

"You eat all day, but work? Never. I don't believe you are listening to what I say."

"I thought you were talking to yourself, sir."—Lustige Kölner Zeitung, Cologne.

W. N. U. 1810

To Study the Arctic

Expedition Of Graf Zeppelin Will Investigate Scientific Subjects

Dr. Walter Bliston, secretary and treasurer of the Aerial Arctic Society, announced plans for a voyage of Arctic exploration aboard the Graf Zeppelin to be taken next April by a group of 12 scientists headed by Fritz Jof Hansen. The principal objects of the projected expedition, Dr. Bliston said, would be to make the boundaries between the deep and shallow parts of the Arctic waters, to study meteorological conditions and to prepare for the establishment of scientific station in the ice fields.

SWATHED HIPLINE

A black crepe satin with buttons down the back is new youthful Paris vogue showing the very feminine note in swathed hips with huge puff at side that dips the hem. Sleeves are slenderly fitted with darts below the elbows.

Style No. 675 is cleverly designed to give height to the figure.

It is a dressy affair for afternoons that is simple enough for general wear, and it doesn't require any trimming.

It is captivating in black transparent velvet or in printed velvet in burgundy tones.

Claret red canton crepe, plum shade in silk crepe, purple crepe Elizabeth, dull black silk crepe, and hunter's green canton crepe smartly appropriate.

It's easily made and the saving is remarkable.

It's a wonderful opportunity to have a Parisian model that shows such perfect taste for all-around afternoon occasions, at the cost of the fabric and a few hours of your time.

It is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust.

Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Says British Empire Not Commonwealth

Use Of This Title Wrong, Says Sir John Sandeman Allen

To call the British Empire a commonwealth of nations is quite wrong, the Toronto Board of Trade was told at the Royal York hotel by Sir John Sandeman Allen, J.P., M.P., chairman of the Royal Empire Society, member of council of the International Chamber of Commerce, and secretary of the commercial committee of the British House of Commons.

"Most people," he said, "talk about the empire as a commonwealth of nations. This is wrong. The empire is divided into three parts, of which the British commonwealth of nations is one. This is the governing body of the empire, and is made up of a group of independent nations, who are mutually interdependent. There is not one country, but 407 separate nations of different creeds and castes, who before the advent of British rule were continually at war with each other, the weaker preyed on by the strong. Now India is two-thirds ruled by native princes responsible to the British crown, and kept together by Pax Britannica. The third part of the British empire is the colonial empire. This is the countries where the populations are not yet fit to govern themselves entirely, but are ruled by the crown, under the principles of British freedom and equality for all."

Received Queer Training

Men Unacquainted With Farm Work Returning To England

Some 200 men, who are returning to England, admit that though they accepted training there at the public expense, together with free board and free transportation to Canada, they never intended to do farm work. If their statement that they never saw a cow or a plow in the course of their training is correct, it would be interesting to learn what kind of training they were given and how much it cost. Taken together, the men's confession of their dislike for farm work and the complaint about the training suggest an explanation of the refusal of the Canadian farmers, with whom they were placed, to pay the promised wage of 10 pounds a month.—Truth, London, England.

A moose can pick up a scent more than a mile away.

Predicts That Crow's Nest Pass Agreement Will Govern Grain Rates On The Churchill Route

In the opinion of Hon. Charles A. Dunning, Minister of Railways, the Crow's Nest Pass agreement will govern the eastbound rates on grain and flour on the Hudson Bay Railway.

"There is no doubt in my mind," he said today, "that grain will travel to Churchill on a mileage basis the same as to Fort William." Mr. Dunning explained that he could not speak in regard to general freight rates, but grain was in a different category.

"In respect of all other rates," he said, "when the road approaches operation, the Canadian National will have to file their rate tariffs with the Board of Railway Commissioners and it will be open to everyone to appeal against these rates if they are not satisfactory."

Mr. Dunning said that he had been pleased to note that the people of Saskatchewan, in this respect, had not been inactive. The traffic organization of Saskatchewan, he believed, had been accumulating information on Hudson Bay route rates for some time and, undoubtedly, would defend the interests of shippers at the proper time before the rate making body—the railway board.

Mr. Dunning, as a matter of fact, has paid much less attention to the rail rate aspect of the Hudson Bay route than to the ocean rate. He regards the rail rates as being entirely within the jurisdiction of the Canadian people, while the ocean rates, which will be of equal importance to the success or failure of the route, are not controllable by Canada. Therefore he has designed the policy of his department from the outset of his administration to obtain as much evidence as possible on the vital question of the safety and efficiency of the Hudson Straits and the Bay from the viewpoint of navigation.

To this end, every ship which has been chartered by the government to carry supplies into Churchill or to sail in these waters, for any purpose whatever, has been chartered on the basis of time. As a rule, ships are chartered for a fixed sum, and the Dominion might have saved a little money by driving a hard and fast

bargain with the owners of ships which have been chartered to sail in these waters. Mr. Dunning thought this would be unwise. He has chartered on time.

The result has been that he is building up a record of the time it has taken ships to go into Churchill and out again to home ports and is in a strong position to prove that the delays in navigating the Straits and the Bay, due to fog, ice or other perils, are negligible.

In regard to the general progress of the work, Mr. Dunning said that the railway will be in operation next summer and the port will be open for commerce in the fall of 1931. The past season has been very successful in every respect. The work at Churchill is well up to schedule. In fact, the work allotted for this year was completed on October 21, and the engineers took advantage of an extremely high tide on that night to beach the dredges and scows and tugs far back on the beach where there will be a minimum of risk from storms during the fall and spring.

During the summer 500,000 cubic yards of material had been removed from the harbor and it was only necessary for the dredges to stop work on one day on account of weather conditions.

While a little shore ice has been noticed at Churchill in the mornings during the last few days, Mr. Dunning stated that it would not impede navigation. With regard to the Straits, Mr. Dunning said that his reports today (Oct. 28), were to the effect that no ice is yet visible at any one of the three direction finding stations situated between the Atlantic and the Bay. Fox Channel ice, so often referred to as a peril to navigation in the autumn, has not yet appeared. There really seems not to be much difference in the temperature at Churchill and points inland. For example, the temperature on October 25 varied between 40 and 32 degrees above zero, which would compare favorably with most cities in Canada on that day.

Increased Demand For Beef

Price Will Be Higher Next Spring Is Prediction

Beef prices in Canada next spring will be high, due to the fact that there is a shortage of beef cattle in the country and comparatively few fat cattle going into winter feeding.

Trade reports for September show the exports of fresh beef to the United Kingdom as being nil, and the United States there was a falling off from \$1,107,208 to \$487,912.

No fresh beef has been shipped to the United Kingdom for several years. At present the price in Canada is so good and the demand so steady that there is only a spread of two cents a pound between the best English killed beef and Canadian beef. The cost of transportation is three cents a pound so that it does not pay to ship.

Supplies of cattle reaching Canadian markets at the present time are very moderate, say officials of the livestock branch, both in Eastern and Western Canada. There has been no liquidation, however, no forced selling, so the farmers have not done so badly.

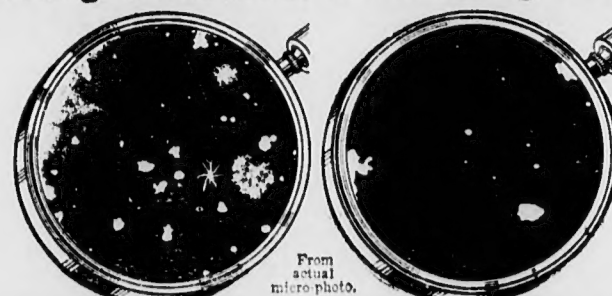

The domestic demand at good prices indicates a measure of prosperity in the country, when people are able to buy meat at good prices despite the competition of the American consumer wanting Canadian beef.

He: "Have you heard that I have become an actor?"

She: "No, I only heard that you had gone on the stage."—Muskete, Vienna.

Changed Methods in Handling Milk

Where proper sanitary measures are neglected the bacteria in a drop of milk look like this.

Where sanitary precautions are taken there are few harmful bacteria in milk. The white specks are bacteria.

How much do the farmers and dairymen of Canada and United pay in toll to bacteria in milk? In process of arriving at the answer to this question, representatives of leading milk and dairy products companies of New York recently met with officials of the State Agricultural Experiment Station, with the Department of Farms and Markets and the College of Agriculture at the Experimental Station, Geneva.

The bacterial count is being used more and more as a basis for determining how much per pound a farmer is to be paid for his milk. Getting the bacterial count under a given figure means millions of dollars annually to dairymen. Dairymen, themselves, are alive to this question, and where the milk produced is a material part of the income from the farm, complete sanitary precautions are being taken to insure a low bacterial count in the milk.

Precautions start at the beginning of milk production and continue clear through until the time the milk is in the hands of the consumer.

To begin with, properly ventilated, easily cleaned stables are provided; plenty of bedding is given the cows; platforms are built the right length to accommodate the particular breed of cows that are kept; the gutter is built wide and deep; the animal

is clipped about the udder and flanks periodically. The cows are groomed carefully every day and just before milking, loose particles of dirt are brushed off, or, when the cow is clipped, wiped off with a damp cloth. Small top milk pails are used to receive milk from the cows. Utensils such as milk pails, milk cans, milking machines and separators, are thoroughly sterilized after each milking.

The fresh-drawn milk is immediately removed to the cooling tank where it is cooled to a temperature of 50 degrees to 60 degrees Fahrenheit.

On receipt at the dairy, the creamery or the condensery, the same extreme sanitary precautions prevail. White garbed workers who have passed medical inspection, who observe rules of personal cleanliness as well as hygiene in the handling of milk and milk products, go about their duties efficiently and intelligently. Immediately after the pasteurizing of whole milk, it is bottled and capped. The date of bottling is stamped on the cap and the milk is usually sold before 36 hours have elapsed since pasteurizing.

What difference over the oldtime methods of handling milk?

It is these changed methods in the handling of the nation's milk supply that has swelled the individual consumption of milk to more than 54 gallons per year.

A MINUTE OR A LIFE

Colder weather, poor visibility, and ice on the highways make the observation of "stop" signs more important during the winter than at any other time of the year. Not infrequently one sees drivers who fail to stop before entering or crossing an arterial highway. Such disregard for law makes driving on these highways dangerous in the extreme because motorists on arterial highways have a feeling of security and are inclined to pay little attention to intersections.

It is a very poor habit to get into, this failing to stop at designated places. Sooner or later it is going to cost money. If it's only a fine of a few dollars the driver will be lucky; it may cost a life or all the damages one is able to pay.

It takes only a minute to stop and start again. An attempt to save that minute may result in the loss of a human life and years and years of regret.

HOW RED CROSS DOLLARS ARE MADE

There is generally a special story attaching to the money that finds its way to the headquarters of the Red Cross Society. The large donation often has a most interesting history, and represents the united effort for weeks and months, or even the whole year of the faithful and patient Red Cross workers in some small sewing group that meets for the purpose of working for the great fall event—the bazaar.

Office records show many remarkable achievements along this line, and the small town, disdained by the heedless passerby, is often able to put to shame the larger cities, in real service, the type that counts.

Sums ranging from one hundred dollars up have been received at headquarters, because several busy women (and who can accomplish so much for other people's needy children as the woman who has her hands full?) have schemed, and planned after a really splendid entertainment, which in its turn followed a truly excellent sale of work.

Gift-sales, auctions, all such come to the Red Cross net, when the local committee goes a-fishing. Tag days and membership drives that are representative of much toil on the part of self-sacrificing workers, all add their quota to Red Cross funds.

The appeal of the crippled child and other work finds a ready response in most hearts, and poor indeed is that district that cannot do something once a year.

"MY TOWN" WILL GROW

Mr. R. W. Fisher, editor of the Walla Walla Union, says:

THAT most every town just happened at the start.

THAT its growth depended on faith.

THAT when a man has faith in a town he is proud of it.

THAT when a man is proud of his town he is proud of his community, his estate, his nation.

LOCAL & GENERAL

Mrs. Scott Hamilton and Mrs. J. Lester Clarke visited in Calgary on Monday.

Maternity nurse desires engagements. P.O. Box 346, Didsbury. 44 4p

The Womens Institute are holding a tea at Mrs. Geo. Smith on Thursday Nov. 28th from 3-6 p.m.

Leave your watch to be repaired at J. V. Berscht's. Prompt service and all work guaranteed.

A. G. Studer and Son's sale last week proved so successful that they have decided to continue it for another week.

Dr. and Mrs. Scott Hamilton, Dr. Bulvea, Mrs. Will Freeman, and Dr. O. F. Strong of Edmonton were visitors at the home of Dr. and Mrs. J. L. Clarke on Sunday.

Don't forget the Melvin Go-Geters' play, "Mrs. Stubbin's, Book Agent," followed by a dance in the Melvin School, Friday evening, Nov. 22, 8 p.m. Bellamy's Orchestra. 45 3c

Keep in mind the St. Cyprian's Social Service concert at the Didsbury Opera House, Mon., Nov. 25 44-4c

Mr. and Mrs. John E. Gooder arrived in Didsbury last week from Omak, Wash. Mr. Gooder will have charge of the mechanical department of the Pioneer. They are residing in the house recently vacated by Mr. L. Wigglesworth.

Mr. E. C. Fletcher, who for the past 18 months has been with the Pioneer, left on Sunday for St. Paul, Alberta. Ernie is looking for a location to break into the newspaper game on his own account.

On Saturday, November 30th, the Ladies Aid of the Ev. Church will hold their annual sale of home cooking and hand made articles in the Leuzler Block, west of the City Meat Market. A good lunch will be served during the afternoon.

On Tuesday, J. W. Philipson conducted a very successful sale for Mr. O. R. Swingle. He reports that prices obtained were exceptionally good and that cattle were in good demand, cows bring as high as from \$140 to \$150. The Swingles are moving to Chilliwack, B.C., Mr. Swingle having already gone and Mrs. Swingle will leave in a few days.

FATTENING TURKEYS

Christmas dinner tables will not lack for turkeys, judging by reports from different parts of the province. Turkeys raised in the open during the summer cannot stand close confinement during the fattening period and should therefore not be confined to pens. Confinement often results in the birds going off their feed and developing digestive troubles, sometimes in death. The proper time to commence fattening is four weeks before they are wanted for table use, which is usually in November and December. The young birds should be started feeding gradually. The feed should be composed of both mash and whole grain, the mash in the morning and at mid-day, and the whole grain at night. The mash is made up of equal parts of ground oats, barley meal, corn meal and wheat bran, and should be fed in a moist condition from clean V-shaped troughs. Whole corn is the best grain for fattening purposes and should be used for the evening meal. Never give more than they will readily eat. Turkeys thrive best in the open and even in the fattening period should be allowed to roost outside with protection, of course, from cold winds and rain.

THAT when he is proud of his town he will fight for it, just as he will fight for other things he considers as his.

THAT one of the biggest assets is the man who says it is "My town."

THAT when you get a whole group to look upon it as "My town" you cannot stop the growth of that town, for other folks want to cast their lots with a place of that sort.

The sooner it becomes "My town" to all the people, the sooner it will grow.

GLIMPSES FROM THE PAST

20 YEARS AGO

Hugh Sinclair sold one of his farms situated west of town this week. Mr. Boukin was purchaser.

The induction of Rev. D. H. Marshall into the pastorate of the Presbyterian Church took place on Tuesday night, in the Presbyterian Church. The Rev. Whidden of Calgary conducted the induction services and Rev. Short of Calgary gave a short address. —Mrs. A. G. Studer sang a solo "One Sweetly Solemn Thought."

10 YEARS AGO

BIRTHS

Hardy—On Tuesday, November 25th 1919, to Mr. and Mrs. S. Hardy, a son.

Jones—On Wednesday November 26th 1919 to Mr. and Mrs. L. N. Jones, a son.

Another addition to Didsbury's fine business premises has been completed and opened up for business, on Monday. This is the splendid new garage built by J. R. Shannon for his sons next to the Union Bank building.

Messrs J. A. McGhee and N. Cook attended the organization meeting of the Alberta Hockey Association at Calgary on Saturday last. Jim received the honor of being placed on the executive committee of the association.

Lutheran Celebration At Calgary, Sunday.

400th Anniversary of Luther's Catechism to be Commemorated.

What is expected to be one of the largest and most memorable gathering of Lutherans ever held in Calgary is planned for Sunday, Nov. 24. At 3 o'clock in the afternoon a special service will be held at the Memorial Hall, 114, 7th Ave. East.

The Rev. Prof. A. H. Schwerman, of Concordia College, Edmonton, will be the principal speaker. Prof. Schwerman is one of the leader of the Lutheran Church in Western Canada and has served as principal of the Lutheran Concordia College at Edmonton since its foundation.

Luther's Catechism which will be the main topic at this gathering, was written four hundred years ago, and has been one of the outstanding productions of the late centuries.

For the celebration of this event next Sunday a special chorus of 250 children and a joint mixed choir from the three congregations of Calgary has been trained to render selections.

Special invitations have been sent out and it is expected that many people of this district will motor to Calgary to attend this anniversary.

A special service will be held at Mt. Calvary Lutheran Church, corner of 4th Avenue and 3rd Street W., at 11 a.m. Out-of-town visitors are encouraged to bring their lunch with them and are invited to spend the noon and supper hours at the parlors of Mt. Calvary.

SCOTT'S EMULSION

YOU'LL LIKE THE TASTE

WORLD HAPPENINGS BRIEFLY TOLD

Marie, of Roumania, most unconventional and perhaps loveliest and loneliest of Europe's queens, celebrated her 51st birthday on October 29.

It is announced that E. W. Beatty, K.C., president of the Canadian Pacific Railway, has accepted appointment to the Canadian Olympic committee.

During September, the first month of the apple-shipping season, 89,476 barrels left Halifax for the overseas markets. This was more than double the exports of September, 1928.

Kaye Don, noted racing car driver, announces that an automobile in which he will seek a world's speed record, at Daytona Beach, Florida, has been nearly completed.

During his speech to the Canadian Club, while in Quebec, Premier Ramsay MacDonald confided to his audience that he proposed to make a trip to Hudson Bay, no matter who attempted to deter him.

Six men, jumping simultaneously from a 19-passenger airplane, demonstrated the possibility of safe descent from a disabled plane. The demonstration was made at Roosevelt Field, New York.

Pleased With Trial Shipments

Good Market Created In Dutch East Indies For B.C. Apples

From trial shipments of apples made in 1928, it has been definitely ascertained that there exists a market for British Columbia apples in Malaya and Dutch East Indies. During the three years a steady increase is shown in the number of boxes entering Java—nearly 50 per cent, since 1926, and the prospects are that 1929 will see a still further increase. Australia, the nearest, is naturally the chief source of supply, followed by the United States Pacific coast.

Just Right For Upset Stomach

For after-eating distress, gas, sourness and bloating, the quick and positive neutralizing action of Blaud's Magnesia has proved to be just right! Relief, certain and gratifying, almost instantly follows the very first dose—and a few cents worth obtainable from any good druggist, lasts for a long time.

Crude Petroleum Production

Alberta Produces About 86 Per Cent. Of Total For Dominion

Figures published by the Dominion Bureau of Statistics show that during the first six months of the present year 470,238 barrels of crude petroleum, valued at \$1,643,025, were produced in Canada. This is an increase of 168,676 barrels, or \$652,267 over the first half of 1928. The Province of Alberta contributed about 86 per cent. of the total for the Dominion, having produced 405,970 barrels.

The Balkan Peninsula contains more native species of plants than any other country of Europe of the same area.

Caught Him Off Guard

Plaintiff Lost Damage Case Through Cleverness Of Lawyer For Defence

A legal friend of mine told me the other day a good story illustrating the value of cross-examination in the hands of an expert at the game. At the time when the present Lord Birkenhead was plain Mr. F. E. Smith, he was retained by a tramway company in a running-down case. The plaintiff, a man of the laboring class, had had his arm injured, and he claimed that the injury was permanent and prevented him from working. If his case were correct, it was a case for heavy damages. Mr. Smith, however, was convinced that the man was exaggerating. The difficulty was to prove it. After several more or less irrelevant questions had been put and answered, Mr. Smith said to the plaintiff quite casually: "Would you mind showing the jury how high you can lift your arm since the accident?" The man, apparently with some difficulty, raised it to his shoulder. "Now," said Mr. Smith in the same casual tone of voice, "show us how high you could lift it before the accident." Up shot the plaintiff's arm, well above his head! The future Lord Birkenhead's insight into the man's mentality had won the tramway company their case.

Smothering Spells Couldn't Walk Far Gaped For Breath

Mrs. T. W. Roth, Kelowna, B.C., writes:—"For over a year I was troubled with smothering spells, and it was impossible for me to walk, even a short distance, on account of having to gasp for breath. A friend told me to try

which I did, and in a short time I felt much better. I can now recommend them to everyone." Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Shipment Of Pure Bred Rams

Four Carloads Shipped From Ontario To Western Canada Points

What is hoped to be the first of a series of shipments of purebred rams from Ontario to the western ranches has just reached the prairies. The four carloads of 275 good purebred rams included Lincolns, Cotswolds, Leicesters, Hampshires, Southdowns and Cheviots, all selected by officials of the Canadian Co-operative Wool growers Limited, who, along with the wool committee of the National Research Council, have been active in promoting sheep and wool interests in Canada. In the past large consignments of these sheep have been sent to the Western States for breeding with the native stock.

All Night With Asthma. Everyone knows how attacks of asthma often keep their victim awake the whole night long. Morning finds him wholly unfit for a day of business, and yet, business must still be carried through. All this night suffering and lack of rest can be avoided by the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively does drive away the attacks.

Another thing that the world needs is an alarm clock which will come right back and ring again after you shut it off in the morning.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

B.C. Exporting Lead and Zinc

A large movement of 1,500 tons of lead and zinc concentrates from Field, B.C., will begin shortly to flow through the Port of Vancouver, the zinc to Japan and the lead to the United States.

A Long Lived Horse

A horse 43 years old was recently exhibited in Germany. It is said that this horse has done all the work on a 16-acre farm and made a daily trip of 18 miles with a light waggon since three years of age.

Canada's Sound Position

Prosperity Due In Large Measure To Agricultural Development

"We are all primarily conscious of the fact that this country, measured by any of the yardsticks by which the prosperity of a nation can be gauged, is a very prosperous country, notwithstanding disturbing stock markets and a rather unusual grain situation, both of which are, we hope, temporary," stated E. W. Beatty, chairman and president of the Canadian Pacific Railway, at a dinner given in his honor by the St. Catharines Chamber of Commerce.

"There is, perhaps," continued Mr. Beatty, "no one reason to which we can attribute all the improvement in Canadian conditions in the last few years, but there is one which stands out above and beyond all others, and that is the impetus given by successive crops, large in volume or in money value. We hope the time will come when our prosperity will be said to be equally balanced as between agriculture and the development of natural resources and industry, but for the moment we are pre-eminently still an agricultural country and that when providence ordains that our crops shall be large we are almost inevitably prosperous."

An Oil For All Men.—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicines and be amongst those taken on a journey.

Canadian Wheat For India

The first full cargo of Canadian wheat ever carried direct to India left the Port of Montreal on Tuesday, October 8th, being 252,698 bushels bound for Calcutta.

Minard's Liniment relieves stiffness.

Noted For Honesty

The honesty of the British public is well known in the British Museum, according to the superintendent of the Reading Room, Mr. Sladen, who has just retired. He states that it is a very rare occurrence to lose a book.

In the rural districts of Sweden every parish forms a self-governing community.

Pioneering In the Peace River Country

Offers Less Hardships Than Suffered By First Prairie Settlers

The Peace River country, as anyone who has visited it knows, is hardly to be regarded as a pioneering country at all. The first thing that strikes the visitor, and the impression that strengthens wherever he travels in the whole Peace River country, is that this is not a new but a finished agricultural section. He is impressed immediately by the substantial farm homes and buildings, by the well-built rural schools, hospitals and churches, by the fact that the telephone wires have been carried everywhere, and that the ordinary amenities of rural life have been provided in a remarkably short time. The Peace River country has gone quite as far in these directions as have most of the older settled sections of the West. The roads are good, substantial bridges have been built, everything in fact has been done in a very few years that could be done for an agricultural community ordinarily in 50 years.

Pioneering in the Peace River country does not begin to compare in hardship or difficulties with the pioneering that was done a century ago in Ontario or Quebec, or the Maritime Provinces. It is attended with much less hardship than was suffered by the first settlers on the Prairies.—Winnipeg Tribune.

This May Be 1933

No One Is Really Sure What Year We Are Living In

It is generally assumed that we are living in the year 1929, but the year may really be 1933, or even later.

This fact is indicated by a record of an eclipse of the moon. Bible history says that Christ was born during the reign of Herod the Great. But Herod died in the spring of 4 B.C., the exact date being fixed by a lunar eclipse which took place the night before his death.

Obviously, therefore, Jesus might have been born not later than 4 B.C., and possibly earlier.

The church has no definite knowledge of the date of Christ's birth. It fixed the year, month and day of the month arbitrarily.

Astronomers are able to calculate the dates of past eclipses as accurately as those of the future, and so have determined the very day and hour of the eclipse that ushered Herod the Great out of this life.

An Early Tractor

Thirty years ago, on September 6, 1899, a steam tractor was demonstrated near Morris, Man. This outfit, travelling at about 1 1/4 miles per hour, pulled ten ploughs, cutting a twelve foot swath to a depth of four inches. A roller was attached behind the ploughs, and it was claimed that a perfect seed-bed was created from raw prairie without back-setting.

Persian Balm is alluringly fragrant. Adds a charming refinement to the most finished appearance. Creates and preserves complexions of surpassing loveliness and texture. Softens and whitens the hands. Cools and dispels all irritation caused by weather conditions. Swiftly absorbed by the tissues leaving never a vestige of stickiness. A peerless toilet requisite. Invaluable to all women who care for elegance and distinction.

Cargo Of No. 1 Hard Wheat

What is believed to be the first full and exclusive cargo of No. 1 hard wheat ever taken out of the twin ports of Port Arthur and Fort William was loaded from Saskatchewan pool terminal No. 7 into a tow barge on Saturday, October 12th. It consisted of 200,000 bushels consigned to Erie, Pa.

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

Use Gopher Pelts

Gopher fur ranching may be the next development in Alberta. The Lethbridge Herald reports that an eastern firm is endeavoring to secure a large number of gopher pelts for experimental purposes in the fur trade, and a communication to that effect has been received by the Board of Trade.

A single-cylinder automobile made in Germany has a motor at the back.

Nature's Speed Artist

Insect Size Of Bee Travels 815 Miles Per Hour

The fastest known bird is the spine-tailed swift, which reaches the speed of 220 miles an hour over the mountains of Asia; the tarpon, of Florida, the fastest fish, can cover 80 miles in an hour; and the Indian cheetah, the speediest animal on legs, is credited with 60 miles per hour. Man has beaten all these records; but he is still second to an insect, a fly no bigger than a bee which has been recorded to do 815 miles per hour.

THEY SAY Cow Clipping Pays!

A CERTAIN farmer wanted the facts about clipping cows so he wrote us for names of those owning clipping machines. He wrote them. Now he himself is so pleased with the Stewart clipping machine he sent us the letters which made him decide the clipping machine is a good investment. Here are some of them:

Vankleek Hill. "I think a clipping machine is a sound investment, paying for itself—yes, ten times its price in one clipping. Why? Because it eliminates the lice nuisance and naturally it takes less feed to keep cattle in good condition."

Bowmanville. "It is the easiest way to keep cows clean. With the old hair off the lice do not bother. A farmer cannot afford to keep cows and not clip them, is my experience."

Tavistock. "It certainly reduces bacteria. It is a good investment to have the machine because it keeps down all the dirt and the milk keeps a lot better."

Aylmer. "We have clipped our cows now for the last ten or twelve years. It sure does away with the lice and when you get rid of the lice the cows milk a lot better. It not only keeps the manure from clinging to their hams, but when the udder is clipped dirt don't stick to it and get in the milk. The cows look a lot better to sell."

HOW TO CLIP COWS
Manure, the principal source of bacteria, cannot collect and at milking time rub off into the pail if hair on udder, underline, flanks and tail is kept clipped short all winter. Lice seem to congregate along the spine, which explains why some farmers clip a six inch width from tail to ears. Farmers who have warm stables and drinking water inside, usually clip their cows all over in the fall.

Buy a clipping machine and make more money from your cows—with less work. Stewart No. 1 Clipping Machine is easy to use and anyone can clip with it. Strong, sturdy, easy-running and will last for years. At your dealer, \$15.00. Satisfaction or money refunded.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous, too. When their baby, Junior, is about two years old, Molly elopes with John Perry, Al's best friend, taking the child. A week later Al learns she is at a New York hotel, ready to sail for France that afternoon. He calls her on the phone, and begs for the chance to say goodbye to Junior. Molly consents, so Junior is taken to the park entrance. It is a tragic farewell, for Al adores his boy. Junior says, "Do you feel bad, daddy?"

CHAPTER XX.

"I'm all right, Junior," said Al. "No, I don't feel bad. I'm just awfully happy to see you. I'll tell you something—you're going far away to another place on a great big boat. Take care of mother and don't let anything happen to her. Be good to her. And remember—you'll see daddy again; we must both wait for that time."

In the distance the nurse-maid was consulting the chauffeur as to the time. He looked at his watch and decided they should be getting back to the hotel. Al looked up to see the severe-faced nurse standing before him.

"I'm sorry," she said firmly, "but it's time for the young gentleman to return to his mother."

Junior turned on her quickly. "But I don't want to go."

The nurse tried to smile, but Junior continued with baby sternness. "If you take me away so soon I won't like you."

Al rose, gathering Junior in his arms. "Sh-h—Junior. It isn't nurse's fault that you have to go. You must be a good boy, every way, every day." Then Al turned to the nurse. "I'll bring him over to the car. Will you please go on ahead?"

The nurse preceded them, while Al made that one hundred-foot walk to the car last as long as possible. Would this really be the last time he ever saw Junior? Perhaps not, but it was quite possible that Junior would be a strapping youngster the next time they came together. If so his adorable baby sayings and his sense of baby gaiety would be gone. His sweet, confiding ways would be replaced by a boyish self-sufficiency. He might even forget his father entirely.

These thoughts travelled like burning darts through Al's mind.

W. N. U. 1810

was it humanly possible for him to give up this little bundle of humanity? Could he live afterward? And then came the thought—take Junior by force, jump into taxi and drive off with him. For a moment this idea persisted with startling intensity. It would be so easy, and he would be justified in doing it!

But, no, Al just couldn't do it—he wasn't made that way. He was kind, generous, chivalrous. He loved Molly in spite of what she had done to him, and he knew she adored Junior. No matter how Molly had hurt him, Al's nature would not let him pay her back in kind. Let Junior go with her and perhaps she would relent and return with the child within a few months. He knew she would take good care of his son.

Al kept his facial muscles firm and controlled until the instant of saying goodbye and putting Junior into the car. Then he had to turn his face away again as he pressed Junior to him. He said haltingly:

"Don't forget, Junior, your mother loves you—you're going to be awfully happy with her. Don't worry—about daddy."

Even the strange nurse was touched by this father's tragic face. Then Al, afraid of breaking openly, quickly passed Junior to her in the car. The motor purred, the door closed, the Rolls-Royce started to move. Al saw Junior's face, dim in the limousine's interior, gazing at him in wide-eyed, troubled wonder.

Al was smiling. It was a desperate effort, but Junior must remember him that way. As the car gained momentum the baby face appeared at the rear window; Junior was waving a frantic farewell. Al started to walk after the car—faster, faster. Now he broke into a run. His heart was breaking, but still he smiled and answered Junior's wave. He stumbled and almost fell, then caught himself up and ran the faster. But the little face at the window became blurred by the intervening distance and suddenly the car itself disappeared down the crowded Avenue.

When Al definitely lost sight of the car he stopped in his tracks. People on all sides were staring at him, conscious that he was passing through a terrible ordeal of some kind. As long as Junior was in sight he had kept up a brave front; now his figure sagged, and he stumbled blindly toward the nearest bench.

He sat with his arm flung across the top of the bench and his head in his arms. He felt that he could not bear to face the life that moved around him, so steadily and relentlessly, a law unto itself and ignoring his despair. He heard the steady hum of the motor cars up and down the Avenue, carrying women home from shopping tours, bridge parties and tea dates, carrying men home from offices. Faintly he heard the footsteps of the pedestrians who passed only a few feet away.

Many curious glances were directed his way. If he had been a down-at-the-heels derelict of the great city he could have sat for hours in that position without attracting any notice at all, but it was unusual to see a fashionably dressed young man with a silver-topped walking stick across his lap sitting on a bench just outside the park's stone wall in a posture suggesting despair. Two girls, passing close by, giggled, believing Al drunk. But when he raised his eyes and stared at them vaguely they relapsed into silence and hurried away.

Finally he stood up and turned back toward the bench where he had sat with Junior. Reaching it, he stepped close and touched it. He must always remember this bench,

the scene of his good-bye to Junior. He took note of the fact that it stood beside a small, bare oak tree with a curiously gnarled trunk.

The winter day was darkening already; nurses from the fashionable houses along the Avenue were bringing home their baby charges who had been playing all afternoon in the park. There was a procession of them—babies in perambulators, little tots of two, three and four, carried in their nurses' arms or trotting along beside the women. Many were dressed similarly to Junior, some looked very like him. And Al stood, slightly away from the sidewalk, peering eagerly into the little faces, listening to the chatter and childish laughter. These youngsters—they were going home to happy nurseries, to fathers and mothers who loved them and were united.

How uncanny it was, thought Al, that this procession of babies passed him just at this time, when he had lost Junior. He stood like a statue until long after the last youngster had disappeared and the last remonstrating tone of the chattering French nurses had died away. Then he turned south toward the city's skyscrapers, already ablaze with light in the distance. Skyscraper apartments—home—reaching into the cold blue winter evening sky! Everything he saw brought comparisons emphasizing the pain of his loss.

He walked slowly, asking himself—Where was he going? Back to the apartment where Celeste, the maid, waited with pitying eyes, back to Junior's nursery? No, he couldn't do that. He must tell Celeste tomorrow that he was giving up the apartment. He would go to a hotel to live.

But what were his plans? He must have plans, something to engage his interest, or he would go crazy with the pain of his loss. That was Al's big problem at the moment, and he knew it. Without plans he would be continually whirling in an emotional chaos.

He had plenty of money—that didn't worry him. And he knew that Molly had salted away—everything she had earned as a revue singer. She was amply able to provide for Junior. Besides, John Perry had made himself rich as a booze racketeer. No, the money angle could be set aside.

(To Be Continued.)

HOW TO RELIEVE CHILDREN'S COLDS

Avoid Serious Results By Using Baby's Own Tablets

When a child shows the first symptoms of a cold, such as sneezing, redness of the eyes, clogged or running nose, prompt measures for relief may avert serious results. Mothers should always have on hand some simple safe and effective remedy for immediate use.

Baby's Own Tablets act quickly, contain no opiates or narcotics, are tasteless and harmless. Concerning them Mrs. Jos. Cadieux, Holyoke, Mass., says: "I have used Baby's Own Tablets for my children and find them a very satisfactory medicine. When my little boy had a cold I gave him the Tablets at night and he was well the next day. I gave them to the children for constipation and they are always benefited. I think Baby's Own Tablets are much easier to give a child than liquid medicine. I strongly recommend all mothers who have young children to keep a box of the Tablets in the house."

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fifty Years Hence

A news item reveals that more than 1,000,000 children are transported to and from school in buses these days. Biographers of presidents 50 years hence no doubt will record: "He trudged to school daily in a six-cylinder bus, a distance of 15 miles."

HEADACHE RELIEVED

... QUICKLY
This Purely Vegetable Pill quickly corrects the digestive disturbances, removes the intestinal poisons, and sick headache quickly disappears. Your whole system enjoys a tonic effect, constipation vanishes, and you feel a renewed vigor. Avoid bromides and dope, they are depressing and harmful. All Druggists 25c and 75c red pkgs.
CARTER'S PILLS

Holland Builds Largest Locks

Third Longer and Half as Wide Again As Panama Canal Locks

The most important of the numerous canals in Holland is that which since 1876 has connected Amsterdam, Holland's second seaport with the ocean. With the gradual increase in the size of the ocean-going vessels, says the Netherlands News Bureau, this canal had to be widened and deepened until at present it belongs, according to its dimensions, to the same class of large, internationally known artificial waterways as the Panama and Suez Canals. The North Sea canal has only one set of locks. These separate the turbulent waters of the North Sea from the calm, unruffled surface of the waterway and the many neighboring smaller canals and ditches. The locks are located at the coast near the town of IJmuiden, one of the important fishing centers of Holland.

As the canal has grown, so have the locks. Those in use at the present time admit ships of about 20,000 registered tons to enter the canal and thus reach Amsterdam. The ever increasing tonnage, especially of the modern liners, made imperative the construction of new locks which would be able to accommodate ocean vessels of any size. The locks have been under construction for a number of years and are expected to be ready early in September.

They will be the largest locks in the world; in length they exceed the locks of the Panama Canal by one-third, in width by one half. The largest ships afloat, the Leviathan and the Majestic, will be able to pass these locks without any difficulty. The preliminary depth of thirty-eight feet will give to the canal a profile with an area of about 14,000 square feet. This is more than the Suez Canal and a little less than the Panama Canal.

The gates weigh nearly 1,200 tons each. They are opened by rolling them back into recesses of exactly their size in the north wall. As no dry dock is available in the neighborhood which could accommodate the gates in case of necessary repairs the recesses had to be fixed up as dry docks. There are two gates in the western end of the lock chamber, one of which can be used as a reserve lock to replace either of the other two. The lock chamber can be filled in less than seven minutes. When the tide is very high it will take a little longer. The whole lock is operated electrically.

A Clever Goose

A bright light of the goose world, in England, is Jimmy, a goose owned by a South Essex miner. Leaping through a hoop, washing his face, toe dancing and jumping over his owner's arm are some of the tricks he boasts of. He partakes of his meals sitting in a high chair at the table and his manners are said to be perfect. He also stands at attention and salutes whenever the national anthem is played.

Worms, by the irritation they cause in the stomach and intestines, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutriment of the child is assured and development in every way encouraged.

Test Was Successful

New German Device Drives Car By Liquid Gas

A new type of automobile, with liquid gas as the propelling agent, has been successfully tested at Essen, Germany, by Max Valler, the inventor.

The car was set in motion by the force of the loud sputtering escaping gas from three steel tubes attached to the rear of the driver's seat. Speed and halting the car was controlled by opening and closing the escape valves.

The car reached a top speed of about 37 miles an hour, but the inventor said that with perfection of the method he expects vehicles to surpass all speed records, and predicted that the method would revolutionize the motive power for airplanes.

There are more than 3,500,000 dogs in France.

Little Helps For This Week

"For the Lord God will help me."—Isaiah 1. 7.

Be but faithful, that is all; Go right on, and close behind thee There shall follow still, and find thee, Help, sure help!

—Arthur Hugh Clough.

What I can do with my single arm may be mean enough; but that is not the question. The thing to consider is, what can I do with God to help me? And the difference of the one and the other is the difference between a man trying to push a train of cars up grade by his single puny strength, and the same man on a locomotive with the steam up, moving the whole mass by a turn of the wrist.

—Robert Collyer.

Canadian Is World's Champion

Montreal Youth Defeats Eight Nations In Oratorical Contest

Roche Pinard, of Montreal, representing the student orators of Canada, won the highest international honors in competition with eight others before members of the diplomatic corps and an audience of about 8,000 in Constitutional Hall at Washington. Herbert Shaumann, of Germany, was second, and Roberto Ortiz Griz, Mexico, third.

Pinard took as the subject of his oration "Canada among the nations," and his address and the manner of its delivery in the French tongue was adjudged the best among those made by the youths of England, the United States, France, Germany, Denmark, Mexico, Cuba and Peru.

Burnside Notes

The Lone Pine W. I. held a very successful dance in aid of the hospital on Friday night last, and a nice sum was realized.

Mr. Ralph Long, who has spent the summer with Mr. Percy Fullerton at Bancrofts returned on Sunday to Mr. Joe Clark to spend the winter.

The Junior U.F.A. are holding a Hard Time dance instead of a masquerade in the Lone Pine hall on Friday evening, November 29th. Everybody come and enjoy themselves. Good prizes given for best costumes.

Mr. Fred Thompson of the Elliott ranch is spending a week in Calgary visiting friends.

The Burnside U.F.A. annual meeting will be held on Monday, December 9th. The losing side in the membership contest will furnish the banquet for the winners and their families.

The Junior U.F.A. will hold their annual meeting on Wednesday evening, December 4th.

Miss Lydia Bittner returned last week from Saskatchewan where she has been spending the last two months with her sister.

The Lone Pine W. I. met in the hall last Thursday afternoon, and spent a very enjoyable time. Mrs. James McCulloch took the topic Canadian Industries, and dealt with it very capably. At the close of the meeting lunch was served.

The annual meeting will be held at the home of Mrs. A. Jenkins on Thursday, December 12th, when election of officers for the coming year will take place.

when Chief Commissioner Wahwahkaiche (Running Deer) of the Ojibwa, and all friends of the Ojibwa of the Iniquity at the Indian Reserve, near Montreal, recently. There is no record of these tribes ever having met before in Canadian history. The Ojibwa Chief is better known as Paul Cameron, head Indian guide for the past thirty years at Nipigon Camp, northern Ontario. Neither could speak a word of the other's language and conversed through the medium of English.

Judges of the annual fishing contests held at French River, Nipigon and Devil's Gap (Lake of the Woods) bungalow camps, have announced the winners as follows: W. H. Graf, of New York, and Frank S. Slosson, of Chicago, tied for the trophy at French River with a 30-lb. muscalonge each; J. H. Lunn of Hammond, Ind., won the Nipigon trophy with a 7 1/4-lb. speckled trout, closely followed by Mrs. Bundy, of Kansas City, with a 7-pounder; and A. R. Joslin, Jr., of Cincinnati, took the Devil's Gap trophy with a bass weighing 3 pounds, nine ounces.

"The destinies of Canada and Japan lie together in the great Pacific Ocean," declared Hon. Iwamasa Takugawa, K.C.V.O., first minister to represent the Emperor of Japan, when he reached Dominion soil here with the arrival of the Canadian Pacific liner Empress of France, at Vancouver recently. He was accompanied by Togo Fukuma, Japanese Consul-General, both of them being on their way to Ottawa where the former later delivered his credentials.

What is regarded as a record movement was made recently at the Saskatchewan Wheat Pool Elevator No. 7 at Port Arthur, when in 4 1/2 hours, 550,000 bushels of wheat were transferred from the elevator to the hold of the steamship Le-moyne. There were periods during the loading of the ship when the wheat was carried like a torrential golden river from the elevator at the rate of 2,666 2/3 bushels per minute.

Fifty different steamship lines now serve to carry Canadian products to every continent from the port of Vancouver, states a recent trade review issued by the Royal Bank of Canada. The review adds that in a period when the other great ports have had difficulty in maintaining their pre-war volume of trade, traffic through the port of Vancouver has experienced steady growth. From 132 ocean-going ships in 1913, the number increased to 1,341 in 1928. During the past year total trade of the port had a value of \$280,000,000.

The largest sugar beet crop on record in Southern Alberta is being harvested in the Raymond district, centre of the industry. About 8,500 acres were sown to sugar beets this year, 2,000 more than in 1928, and the crop will on estimate yield about 65,000 tons or 23,000 above last year's production.

Cable advice from London state that Captain Ronald Stuart, V.C., D.S.O., U.S.N.C., R.N.R., commander of the Canadian Pacific liner "Duchess of York," has been officially selected to attend the Armistice Day ceremonies at the Cenotaph in London. Captain Stuart is one of the youngest liner captains on the North Atlantic and the only passenger ship captain to wear the Victoria Cross. It is expected that he will also be present at the Prince of Wales' dinner to V.C.s.

Dad has a sure sign now as to when he may use the car. That's when the daughter eats onions for dinner.

Here's Some More -

\$16.00 per acre will buy 480 acres of raw land west of Didsbury. No brush. Small cash payment and good terms.

\$18.00 per acre will buy improved half section, 140 acres under cultivation. Good buildings; good spring. West of Didsbury. This will make a good mixed farming proposition.

Have raw land for sale, 8 miles west. \$5000 a quarter; \$1500 cash. Seven years to pay, interest 6 per cent.

160 acres of pasture land, all fenced. Two good springs, located this side of the little Red Deer river. A snap at \$8.00 per acre.

160 acres improved farm, close in, will trade for half or three-quarter section.

Fruit Farm.—Will trade 5 acres, good fruit land, well improved, situated in Chilliwack, B.C., clear title, for land or other property in this district.
